

Markaz Ahle Hadees Kokan - Library Project

GitHub Developer Workflow & Admin Approval Roadmap

Assigned Branch: tarique

PART 1: Developer Step-by-Step Guide (Tarique)

(Developer Workflow)

1 Step 1: Project Clone Karein (Sirf Pehli Baar)

Apne computer par terminal ya Git Bash open karein aur yeh command chalayein:

```
git clone https://github.com/SubaiJamiatAhleHadeesMumbai/kil-library.git
cd kil-library
```

2 Step 2: Apni Assigned Branch Par Switch Karein

Direct main branch ke bajaye apni branch tarique par switch karein:

```
git checkout tarique
```

3 Step 3: Roz Kaam Shuru Karne Se Pehle Latest Code Pull Karein

Roz coding shuru karne se pehle previous updates lene ke liye command chalayein:

```
git pull origin tarique
```

(Agar main branch se latest changes lene hon: `git pull origin main`)

4 Step 4: Coding & Local Testing

Apna task complete karein aur local machine par run karke check karein.

5 Step 5: Apna Kaam Apni Branch Mein Push Karein

Kaam complete hone ke baad in 3 commands se code GitHub par bhej dein:

```
git add .
git commit -m "feat: [Aapne jo kaam kiya uska short title]"
git push origin tarique
```

6 Step 6: GitHub Par Pull Request (PR) Banayein

GitHub repository page open karein: <https://github.com/SubaiJamiatAhleHadeesMumbai/kil-library>
Upar green button "**Compare & pull request**" par click karein. Base branch main aur Compare branch tarique select karke "**Create pull request**" par click kar dein.

PART 2: Admin Ko Kaha Dikhega Aur Kaise Approve/Merge Hoga?

(Admin Approval)

1 Pull Requests Page Open Karein

Admin GitHub par repository open karke top menu mein **"Pull requests"** tab par jayenge:

```
https://github.com/SubaiJamiatAhleHadeesMumbai/kil-library/pulls
```

2 Code & Files Review Karein

Tarique ki bheji hui Pull Request par click karein. Upar **"Files changed"** tab mein check karein ki kya naya code add hua hai (Green) aur kya remove hua hai (Red).

3 Approve & Merge Kar Dein

Sab kuch theek hone par niche green button **"Merge pull request"** -> **"Confirm merge"** par click karein. Code live server par automatically deploy ho jayega.

 **Safety Guarantee:** Jab tak Admin khud "Merge" button click nahi karenge, tab tak Tarique ka code live website par nahi aayega aur live site safe rahegi.
